People leaving the city for their summer vacation cannot afford to also leave THE TIMES. It will be mailed to any address and will continue to be the best local newspaper in Wash-

WILL HAVE NEW QUARTERS

Old Municipal Building Leased for Business High School.

ORDER APPROVED YESTERDAY

Attorney Thomas Renders an Opinion in the Sidewalk and Parking Cases. Believes All Should Be Treated Alike. Merry-go-rounds Yield the District No Revenue.

The Basiness High School will for the ensuing year be quartered in the building on First street northwest, lately vacated by the District Commissioners, at a rental of \$3,000.

Since the trustees discovered that the Miner building is not suited to the purpose, and an order was made terminating the lease, the Commissioners have been investigating other property with the view of obtaining a building better adapted to

the needs of this important institution. A committee was appointed to examine the old manicipal building. The committee was composed of Supt. Powell, Dr. Lane, principal of the Central High School; Health Officer Woodward, and Building Inspector Brady, who, after a careful inspection of the premises, reported favorably, with the condition that the building be put in proper repair for the reception of the school

The inerior construction will have to be remodeled, and numerous changes and improvements will be necessary. This Mr. Smith, owner of the building, will under take to have done in time for the opening

Upon the recommendation of the commission President Ross, of the board, ap-proved of the proposal to lease and submitted it to his colleagues for their action. It will receive the indersement of the entire board, and the lease will probably be con-summated to-day. Mr. Smith could not he seen to ascertain his views, but it is

MR. THOMAS DECIDES A POINT. Attorney 8. T. Thomas presented to the Commissioners resterday his opinion upon the points arbuntted by them in regard to the sidewaik obstruction cases, especially touching the distinction between certain cases, heretofore noted in The Times, and as to postponement of the police court

The attorney says: "The two classes are distinguishable in this, that in the Louisiana avenue cases the persons proceeded against are occupying the sidewalk for private business purposes. They are not in all cases occupying it themselves, but in some cases rent it and derive a revenue for the privilege. This has been determined over and over again to be fillegal. In the case of the lumber dealers they are charged with occupying the parked they are charged with occupying the parked they are charged with occupying the parked spanes on certain streets for storage purposes. It is not space set uside for sidewark purposes, and such occupation has not been the subject of judicial investigation and description and descriptions.

ion and decision.
"Whilst there is a material distinction "Whilst there is a material distinction between the parking coses and the side-walk cases which an interested party might not readily see. I think as a matter of administration it would be well to treat all the cases alike and suspend further prosecutions in both classes until a decision by the court of appeals can be obtained in the pending cases."

The opinion was approved by the Commissioners, except as to the aidewalk cases.

GREAT STATE OF AFFAIRS. Merry-go-rounds are not in favor with the Commissioners and all applications the Commissioners and all applications for permission to locate them are turned down. A formal displication of the order, refusing permits was placed on record yesterday. It is stated that the money is tendered at the office each day by those in operation, but it is steadfastly declined. This policy deprives the treasury of not less than \$300 per week, and yet it does not abolish the merrygo-rounds. Once established, the process of getting one out of the community requires from ten days to two weeks, and the District bears the expense while getting nothing in return. pense while getting nothing in return. This is described as a "great state of
